MOTHER NOTES: Catalina Damiana Zarandona Yguarriza

General: Born 6pm the same day. Proclamas y Registros 2/28/1808 in Leketio, Married 3/1/1808 at San Miguel Arcangel in Ispaster, Baptized 9/27/1777 at Ispaster, her parents are Joseph Tomas, Zarandona, Garatea of Ispaster and Theresa Yguarriza, Bidaurreta of Gizaburuaga (a town 2 miles south of Ispaster). Catalina's sister Josepha was married to Miguel's brother Ygnacio on 8/29/1793 at Ispaster. Catalina was previously married to Juan Miguel Aguirre (Cortazar) Bengoechea on 11/5/1798 at Ispaster, who died at age 28 on 7/3/1805 at Ispaster. He was a twin (sister Maria Margarita, both born at 6pm the same day as baptism) and was baptized 9/30/1776 at Ispaster. Juan Miguel's parents were Bautista Aguirre Achaval of Ispaster and Maria Bengoechea Burgana of Lekeitio. NFS has confusion with her sister Catalina 1772 being married to her husband.

Catalina had three children with her first husband Juan Miguel Aguirre Cortazar Bengoechea. Or was this her older sister Catalina's husband? Their last names were Aguirre, Zarandona, and they were all baptized at San Miguel Arcangel in Ispaster.

These two sets of grandparents are based on the assumption that Maria Solocabal Albusua is the sister of Potenciana. It appears to be the case except Solocabal is her last name rather than Sagarza, so I am not positive. There is enough evidence that I am putting in these

grandparents, but it is not completely conclusive. They do share Munibe godparents.

MOTHER NOTES: Maria Perez Esuneta

General: I believe her proper parents are Juan and Maria Martinez, but I am connecting her to both sets of parents.

There are three that looked like siblings but have father Juan and mother Maria Martinez. I have there images, but did not connect them.

There are two options here, one of which is most certainly correct, but there are not enough records to be sure which it is. If we could find Maria Garcia's baptismal we would be set, because it would disambiguate grandparents. Maria Garcia was definitely the daughter of Domingo Arana and Mara Perez Esuneta (this shows on her marriage record, and on her daughter's baptismal). However there appear to be two different Domingo Arana/Maria Perez Esuneta pairs. One Maria Perez is definitely born May 30, 1611 in Lekeitio with parents

Family Group Sheet

Domingo Esuneta and Ana Abaroa. This is one possibility. There is also a Maria Arana Esuneta born June 24, 1640 in Guizaburuaga (which could be our Maria Garcia) with parents Domingo Arana and Mara Perez Esuneta but with maternals Juan Arana and Maria (Perez/Martinez) Esuneta, as also confirmed by 2 other siblings. In NFS it currently has both Maria's as children of Domingo Arana and Maria Perez Esuneta but only one should be there. Since we are not sure which, we will allow both parents in this situation.

I think there was a typo switch of her paternals.

Checked. Could be Ana Lexarcegui Artechea 1/6/1671 Iburrari, Parents Joan Ochoa and Domeca, also has 4 siblings. But her daughter's baptismal has Pedro for maternal grandfather. This could be a mistake, but there is not sufficient evidence at this time the assume this is our Ana.

Her father could be Juan Ochoa, which would be her Ana of Munitibar. Based on two probable cousins (children of Maria Cruz Lexarcequi Artechea) that would also suggest Juan Ochoa.

Cousins are

Joseph Ajuria Goxeascoa, Lexarzegui - Munitibar May 11, 1700

Francisco Ajuria Goxeascoa, Lexarzegui - Munitibar Apr 3, 1703

Only mention of Pedro is an abbreviation in her daughter's baptismal which could be a typo.

She was a vecino of Mendata when her daughter Maria was married to Joseph Zarraonaindia

CHILD NOTES: Maria Aranaz Lejarcequi

General: Godfather Domingo de Aranaz?

Check to make sure her parents are grandparent matches

CHILD NOTES: Maria Arancamendi y Gurpidea

General: Her godmother was Maria daughter of Francisco Arancamendi who was dead at that time, so that Francisco is most likely the grandfather, and he is also the father of Juan, the godfather of Maria's younger sister. However, this is not enough evidence to add him as grandfather in my opinion.

Was godmother and specified as Aunt of her niece Lucia in Lucia's baptismal.

CHILD NOTES: Francisca Arancamendi y Garpidea

General: No name given in index. Name is at the end of the record for the older siblings and name at end appears to be Francisca (abbreviated) in this record and so I am going with it, though it is not as clear as I would like.

It appears he had a previous marriage on May 13, 1735 to Maria Ajuria Echaverrieta. One might think that this Maria and Maria Ajurica Goicoa are the same, but the marriage and baptismal records definitely show that the Maria's have different parents and are not the same. I include the marriage records here.

old reason: first Martins may have died, and already pretty old at marriage.

On closer inspection, although index has births at Oct 1, 1717 and Oct 22, 1718, the actual records show 1717 for both and also the same Godparents for both, so I am going to assume they should be combined.

He died in action in the Spanish civil War of 1820-1823 on Mount Sito in Alaba. He was a volunteer soldier of the army of Nircaya which was commanded by Colonel Fernando Zabala. He was mortally wounded in the battle against the constitutional troops. He was single when he died. The record has his age as 18. I have noticed in many cases (including Benita's), when an age is stated, it is given about 2 years younger than actual. Domingo's grandmother Catalina has last name Urrutia in the baptismal record for Domingo and the rest of the children.

General: Native of Ajanguiz (1 grandchild record says Ugarte). Have a death record for a Miguel Basterrechea but too young to be this one. Could be a son and it is attached.

There is a Joseph Basterrechea married to Maria Ajuria Echabarieta with 3 children including a Maria. One could be tempted to say Joseph is Miguel, but there is not enough evidence at all to lean that way. I have still attached the records of Joseph and his children for reference.

Ibarruri 1709-6-8 f6vr Josepha, 1711-4-16 f13r Ursola, 1718-4-1 f24rv Maria, Ugarte M 1708-9-16 f130r Joseph Basterrechea, Her and Possible siblings

Could be 5/8/1701 Ibarruri parents Antonio and Dominga

Possible death 8/30/1779 attached

She is a native of Gorozika

CHILD NOTES: Antonio Berroja Echabarria, Ysasi Asua

General: Godparents (Fra?)_ Berroja Echavarria and Josepha Ochandetegui y Asua

There are two brothers both named Antonio, and we only have the baptismal for one (6/14/1718). One married Marai Ana Leguinaza (Original marriage) on 1/3/1749 in Lezama and the other married Josepha Leguinasa in Gorozika (velaciones) 1/15/1749. Maria Ana and Josepha have different parents and are probably cousins.

I am not sure which Antonio is with which spouse. I am putting Antonio (born 1718) with Josepha since velacions often came later than original marriage.

MOTHER NOTES: Maria Uribarri Barainca

General: Born 5am the same day. She was born in the "Caserio denominado Urquiza." Caserio is a country house or hamlet or tiny group of houses. Thus the translation would be "country house called Urquiza." This appears to be the same house where Benita was born, and could also be the "address" where the family lived.

She died in her house in Guernica in the arms of her granddaughter Maria Victoria Hormaeche Chopitea at age 77. She died suddenly at home. Maria told us about this while we were in Maria's weekend home in Mendata.

CHILD NOTES: Benita Chopitea Uribarri

General: She was a nun and was named after our Benita. Born in Gernika, but her baptismal info is through Ajangiz

Buenas tardes Tony,

Todos los hermanos nacieron en Gernika, aunque por parroquia sus partidas de nacimiento corresponden a Ajangiz (nacieron en el barrio de Renteria, que hasta 1950 aproximadamente perteneci6 al municipio de Ajangiz y posteriormente paso a pertenecer a Gernika).

Un saludo.

Fernando Gorostiza Hormaeche.

CHILD NOTES: Asuncion Chopitea Uribarri

General: All siblings were born in Guernica though at the time it was actually part of Ajangiz.

CHILD NOTES: Santiago Chopitea Uribarri

General: Didn't have children

CHILD NOTES: Pilar Chopitea Uribarri

General: We visited with her in the rest home. She was 85 and was a wonderful person with lots of energy. She remembered her mother and Aunt Tereza talking about Benita and hoping that they would hear from her.

FATHER NOTES: Pedro Derteano de Suso

General: Checked. Could be Pedro Derteano from Etxano 7/30/1570 but there is at least one other close Pedro Derteano in the area so I can't tell if this is the right one. There are a number of other children (Maria, Maria San Joan who are both godparents of nephews) which could be theirs, but can not tell which is which since there appears to be another contemporary Pedro Derteano and Maria in Etxano.

There are a number of children to two pairs of Pedro Derteano and Maria but cannot tell which is which. Ursola has mother Maria Gumucio and also Ursola is a godmother so we know that is correct.

MOTHER NOTES: Maria Gumucioeche Eznaurriça

General: Marina in baptismal margin, but appears to be Maria in body

CHILD NOTES: Pedro Derteano Goicoa, Gumucio

General: Godparents Assencio Arrechaga and Antonia Asua (Freilla)?

This Pedro and Ursola. The others are maybe since there is another Pedro Derteano/Maria parent pair.

CHILD NOTES: Maria Derteano Gumucio

General: Could also be Maria Derteano christened 4/21/1610

Godmother Maria Banes Derteano

CHILD NOTES: Ursola Derteano Gumucio

General: Godparents Anders Abbad Echabarria Beneficiado de Amorebieta and Ursola Gomucio (doncella)

CHILD NOTES: Martin Derteano Gumucio

General: Godmother Maria Ochoa Derteano du yuso doncella

Ursola's birth certificate points out our Pedro and Maria and the owners of the casa Derteano y Suso. Martin's parents are also these owners so we know Martin is one of ours.

CHILD NOTES: Domingo Derteano Gumucio

General: Godmother is the widow Marina Gomucio

Parents again are duenos of Casa Derteano

CHILD NOTES: Blas Derteano Gumucio

General: Godmother Maria Ybanes Gumucio

FATHER NOTES: Pedro Erecacho

General: Godparents Juan Perez Landaguren and Pedro Urigoen (same last name as a child's godparent) and Maria Aldana Ugarte 1552-5-29 f9r probable, since only one and in just the right spot, but...

MOTHER NOTES: Marina Usparicha

General: Could well be Marina Usparicha christened 3-17-1555 in Muxica-Ugarte. However, that would make her 16 when her first child was born which is pretty young. Also, even though this the only Marina there are other Usparicha families in Ugarte so not quite enough evidence.

CHILD NOTES: Magdalena Erecacho Usparicha

General: Godparents Pedro Ruiz Yturriaga and Marina Gonzalez Ugarte

CHILD NOTES: Marina Erecacho Usparicha

General: From NFS through children

CHILD NOTES: Joan Erecacho Usparicha

General: Godfather Joan Yracabal

CHILD NOTES: Vicente Erecacho Usparicha

General: Godparents Martin Usparicha Pagaegui and his sister Marijoan

CHILD NOTES: Eufemia Erecacho Usparicha

General: Godparents Joan Urigoen and Mayora Albiz Usparicha. Possible late marriage to Domingo Goicoechda 1/8/1631 Ugarte f24v (attached). A marriage witness Joan Usparicha Pagaegui has the same last names as the godfather of her brothers Vicente and Pedro making it even more likely. Appears to have later married Domingo Goicoechea 1/8/1631 in Muxica-Ugarte.

CHILD NOTES: Pedro Erecacho Usparicha

General: Godparents Martin Usparicha Pagaegui and his wife Mayora

CHILD NOTES: Adrian Erecacho Usparicha

General: Godmother Marijoan Usparicha

CHILD NOTES: Maria Perez Esuneta

General: I believe her proper parents are Juan and Maria Martinez, but I am connecting her to both sets of parents.

There are three that looked like siblings but have father Juan and mother Maria Martinez. I have there images, but did not connect them.

There are two options here, one of which is most certainly correct, but there are not enough records to be sure which it is. If we could find Maria Garcia's baptismal we would be set, because it would disambiguate grandparents. Maria Garcia was definitely the daughter of Domingo Arana and Mara Perez Esuneta (this shows on her marriage record, and on her daughter's baptismal). However there appear to be two different Domingo Arana/Maria Perez Esuneta pairs. One Maria Perez is definitely born May 30, 1611 in Lekeitio with parents Domingo Esuneta and Ana Abaroa. This is one possibility. There is also a Maria Arana Esuneta born June 24, 1640 in Guizaburuaga (which could be our Maria Garcia) with parents Domingo Arana and Mara Perez Esuneta but with maternals Juan Arana and Maria (Perez/Martinez) Esuneta, as also confirmed by 2 other siblings. In NFS it currently has both Maria's as children of Domingo Arana and Maria Perez Esuneta but only one should be there. Since we are not sure which, we will allow both parents in this situation.

This overlap is enough to suggest they should be different.

FATHER NOTES: Bartholome Legarra Ascarreta

General: Godparents Priest Doming Legarra Senior and Madalena Ascarreta.

both natives and parishioners of San Juan de Murelaga, Puebla de Aulestia (Aulesti) (San Juan Buaptista). Checking death records.

Left living children Domingo (married to Cathalina Aramburu(sp?), Josepha (single - never married), Maria (married to Marin Zubero Uriarte - cousin?), Don Joseph (iniciado - youth?)

1st last name Saens de Legarra in index

MOTHER NOTES: Maria Uriarte de Guerena Alzelegui, Urizar Zubero Goxeascoa

General: Godparents her paternal grandfather Martin Uriarte and maternal grandmother Maria Espilla.

Her baptismal says Grandfather Martin is a descendent of the Caseria de Uriarte de Guerena. In the margin of that same record it says there there is not a Caseria de Uriarte de Guerena in the area but there is a Caseria de Urizar de Guerena, causing the writer of the margin to assume the granddaughter's last name should be Urizar. However, we tie the Urizar through the maternal side.

Her deatch record shows that she is Maria Zubero Uriarte Alzelegui which was the key to show that her children are Legarra Alzelegui.

both natives and parishioners of San Juan de Murelaga, Puebla de Aulestia (Aulesti) (San Juan Buaptista)

Two Maria Uriarte Zubero's born in Aulesti in 1683 - Possibles, but probably too early of birth dates.

Also an Ignacio Subero Uriarte, Berreno Echeverria born 8/28/1692 in Munitibar which could be a sibling?

Left living children Domingo (married to Cathalina Aramburu(sp?), Josepha (single - never married), Don Joseph (iniciado - youth?), husbands also includes Maria (married to Marin Zubero Uriarte - cousin?)

CHILD NOTES: Domingo Legarra, Zubero Uriarte Alzelegui

General: Godparents Maternal grandfather Ascencio Alzelegui and Josepha Ascarreta his paternal grandmother

CHILD NOTES: Maria Legarra, Zubero Uriarte Alzelegui

General: Godmother Marina Urizar her maternal grandmother

CHILD NOTES: Antonio Legarra, Zubero Uriarte Alzelegui

General: Died as baby. Death in margin. Godfather Francisco Alzelegui

CHILD NOTES: Thomas Legarra, Zubero Uriarte Alzelegui

General: Born 8am the same day. Godparents Priest Joan Ygnacio and Marina Alcelegui.

Last name most likely Z(S)ubero. There is a town Subero right next to Aulesti. Natural of Aulesti(a).

General: Godparents Pedro Lexarcegui and Maria Ochandategui

I think there was a typo switch of her paternals.

Checked. Could be Ana Lexarcegui Artechea 1/6/1671 Iburri, Parents Joan Ochoa and Domeca, also has 4 siblings. But her daughter's baptismal has Pedro for maternal grandfather. This could be a mistake, but there is not sufficient evidence at this time to assume this is our Ana.

Her father could be Juan Ochoa, which would be her Ana of Munitibar. Based on two probable cousins (children of Maria Cruz Lexarcegui Artechea) that would also suggest Juan Ochoa.

Cousins are

Joseph Ajuria Goxeascoa, Lexarzegui - Munitibar May 11, 1700

Francisco Ajuria Goxeascoa, Lexarzegui - Munitibar Apr 3, 1703

Only mention of Pedro is an abbreviation in her daughter's baptismal which could be a typo.

She was a vecino of Mendata when her daughter Maria was married to Joseph Zarraonaindia

General: married 11/30/1719 at San Pedro Apostol in Ea-Bedarona. Ea (pop. 800) and Bedarona are two neighboring towns 3 miles northwest of Ispaster and 6 miles north of Mendata/Arratzu. Maria was born in Ea (or Nachitua, which is two miles west of Ea-Bedarona). Her parents are Juan Bautista Longa of Bermeo (on the coast 8 miles north of Guernica) and Ursola Ezcoiquiz of Ea, parishioners of Nachitua.

This was her second marriage. She was previously married to Juan Zaracondegui and had five children. I have the baptismal records for of her five children with Juan. The work for these and her sealing to Juan are being done by Lori Echevarria Woodland from Rexburg, who sent me an e-mail.

FATHER NOTES: Bartolome Malax Goicoechea

General: Torn record, but can see mother's name.

MOTHER NOTES: Marina Zubero Goitiandia

General: Probably has a brother Francisco born 4/2/1589 in Aulesti to Pedro Goitia and Marina, but can't tell for sure.

CHILD NOTES: Pedro Goicoa Malax Zubero Goitia

General: Godfather Pedro Goicoa.

Zubero's mother might be different.

CHILD NOTES: Miguel Zubero Goitiandia Espilla Malax Goicoechea, Goitiandia

Vecinos of Aulesti

Marriage witnesses include Andres Ybarra

General: Godparents Miguel Goicoechea and Maria Perez Legarra

CHILD NOTES: Maria Goicoa Malax Zubero Goitia

General: Godparents Domingo Goycoa Malax and his wife.

Marina was baptized six days after her sister Maria. Thus it appears they were twins but not baptized on the same day. That is unusual, and it could be that Maria and Marina are the same person. However, the two baptismal records are consecutive in the book and there is no mention or sign that this record is a correction of the previous.

General: Marriage witnesses include Juan Ortiz Obieta Lomoquiz and his wife Catalina Lomoquiz, Ochoa Ortiz Obieta and Martin Marmex

Parishioners of Arratzu. Martin and Maria had died by the time their son San Juan married in March 4, 1626.

There is a marriage 1579, but wife is Maria San Juan (check careful), and two of the children (Francisca and Maria) have Maria San Juan as mother. Check image careful. Looks to be correct with her name sometime being Maria Martinez (always on grandchild baptisms) and sometimes Maria San Juan.

There is a Martin Marmex Echabarria, with the mother name occluded which could be a son, but I am suspecting not do to the Echabarria and it coming before the 1579 marriage. I have attached the images for reference.

Proclamas y Registros 2/28/1808 in Leketio, Married 3/1/1808 at San Miguel Arcangel in Ispaster, Baptized 9/27/1777 at Ispaster, her parents are Joseph Tomas, Zarandona, Garatea of Ispaster and Theresa Yguarriza, Bidaurreta of Gizaburuaga (a town 2 miles south of Ispaster). Catalina's sister Josepha was married to Miguel's brother Ygnacio on 8/29/1793 at Ispaster. Catalina was previously married to Juan Miguel Aguirre (Cortazar) Bengoechea on 11/5/1798 at Ispaster, who died at age 28 on 7/3/1805 at Ispaster. He was a twin (sister Maria Margarita, both born at 6pm the same day as baptism) and was baptized 9/30/1776 at Ispaster. Juan Miguel's parents were Baupstista Aguirre Achaval of Ispaster and Maria Bengoechea Burgana of Lekeitio. NFS has confusion with her sister Catalina 1772 being married to her husband.

Catalina had three children with her first husband Juan Miguel Aguirre Cortazar Bengoechea. Or was this her older sister Catalina's husband? Their last names were Aguirre, Zarandona, and they were all baptized at San Miguel Arcangel in Ispaster.

Christening Might not be the right Ynigo, just based on two children having Maria as grandmother name. However, he is only Ynigo with Lezama record, and his father is also Ynigo as records show. Thus, I am tying him to this christening.

General: Marriage witnesses include Juan Ortiz Obieta Lomoquiz and his wife Catalina Lomoquiz, Ochoa Ortiz Obieta and Martin Marmex

Parishioners of Arratzu. Martin and Maria had died by the time their son San Juan married in March 4, 1626.

There is a marriage 1579, but wife is Maria San Juan (check careful), and two of the children (Francisca and Maria) have Maria San Juan as mother. Check image careful. Looks to be correct with her name sometime being Maria Martinez (always on grandchild baptisms) and sometimes Maria San Juan.

There is a Martin Marmex Echabarria, with the mother name occluded which could be a son, but I am suspecting not do to the Echabarria and it coming before the 1579 marriage. I have attached the images for reference.

General: Godparents Martin Ormaechea and Catalina Barandica

CHILD NOTES: Mari Banes Ormaechea de Ciloniz

General: Married Martin Hormaeche Nov 14 1633 in Ugarte . Possible that it was a second marriage because there is another Maribanes married to Pedro Larrabe (no marriage record), but we have the baptismal of daughter Maria Larrabe Mari Banes daughter of Domingo and Maribanes. Could be second marriage, second Mari Banes, or could also be either of the Maria's. Marriage witnesses include Anton Ciloniz (brother) and his wife Maria Ochoa. Her parents are Domingo Sagasti and Maribanes. She could be the same as one of her sisters Maria, but can't be sure, so keeping her separate.

FATHER NOTES: Domingo Solacaval

General: These two sets of grandparents are based on the assumption that Maria Solocabal Albusua is the sister of Potenciana. It appears to be the case except Solocabal is her last name rather than Sagarza, so I am not positive. There is enough evidence that I am putting in the these grandparents, but it is not completely conclusive. They do share Munibe godparents.

CHILD NOTES: Maria Uriarte de Guerena Alzelegui, Urizar Zubero Goxeascoa

General: Godparents her paternal grandfather Martin Uriarte and maternal grandmother Maria Espilla.
 Her baptismal says Grandfather Martin is a descendent of the Caseria de Uriarte de Guerena. In the margin of that same record it says there there is not a Caseria de Uriarte de Guerena in the area but there is a Caseria de Urizar de Guerena, causing the writer of the margin to assume the granddaughter's last name should be Urizar. However, we tie the Urizar through the maternal side.

Her deatch record shows that she is Maria Zubero Uriarte Alzelegui which was the key to show that her children are Legarra Alzelegui. both natives and parishioners of San Juan de Murelaga, Puebla de Aulestia (Aulesti) (San Juan Buaptista)
 Two Maria Uriarte Zubero's born in Aulesti in 1683 - Possibles, but probably too early of birth dates.
 Also an Ignacio Subero Uriarte, Berreno Echeverria born 8/28/1692 in Munitibar which could be a sibling?

Left living children Domingo (married to Cathalina Aramburu(sp?), Josepha (single - never married), Don Joseph (iniciado - youth?), husbands also includes Maria (married to Marin Zubero Uriarte - cousin?)

MOTHER NOTES: Maria Garcia Arana Esuneta

General: There are two options here, one of which is most certainly correct, but there are not enough records to be sure which it is. If we could find Maria Garcia's baptismal we would be set, because it would disambiguate grandparents. Maria Garcia was definitely the daughter of Domingo Arana and Mara Perez Esuneta (this shows on her marriage record, and on her daughter's baptismal). However there appear to be two different Domingo Arana/Maria Perez Esuneta pairs. One Maria Perez is definitely born May 30, 1611 in Lekeitio with parents Domingo Esuneta and Ana Abaroa. This is one possibility. There is also sMaria Arana Esuneta born June 24, 1640 in Guizaburuaga (which could be our Maria Garcia) with parents Domingo Arana and Mara Perez Esuneta but with maternals Juan Arana and Maria (Perez/Martinez) Esuneta, as also confirmed by 2 other siblings. In NFS it currently has both Maria's as children of Domingo Arana and Maria Perez Esuneta but only one should be there. For the time being I will leave the connection to Ana Abaroa since it is in NFS, but it could go either way.

CHILD NOTES: Maria Garcia Uribarren y Zarandona Esuneta

General: Sometimes Maria Gracia (Grazia), Godparents ? Zatica and Maria Uribarren

This line going up has a number of difficulties with switched names/grandparents, etc., on the church records, so I am not as sure on these.

General: Born at 1pm the same day

They say that Domingo was very tall (well over 6 feet) and was a large man overall.

MOTHER NOTES: Josefa Rita Juana Barainca Marque Erquiaga

General: Josefa Rita Juana in baptism certificate. Born at 1pm the same day. Check her marriage to make sure she was Rita Juana and not another daughter. Her marriage certificate shows that she was 30 when married which confirms she is the right one.

Seemed to go by Maria Josefa

CHILD NOTES: Nicasio Uribarri Barainca

General: Born 3am the same day. Married to Dolores Yzaguirre on 9/15/1910. Nicasio's godfather was his paternal grandfather Juan Antonio Uribarri, and his godmother was his great-aunt Matea Uribarri, the older sister of his paternal grandfather (and godfather) Juan Antonio Uribarri. In an interesting twist, the godfather of Domingo was Juan Domingo Yzaguirre, whose brother Jose's granddaughter Dolores would end up marrying Nicasio.

He was born in his father's house which was the caserio Urquiza (Urquitze) as were all the children.

Registro Civil was given by his father at 10am the same day. States mother's age of 24 (which should be 30) as verified in other places. His age was 25. Who knows the reasons for this (did he know the exact age, did they have an agreement that she wanted to seem a year younger? Who knows? I note that 9 years later when Maria is born her age on the civil register is 25. Remarkably slow aging.

He came through Ellis the first time in 1904 with intent to visit his brother Leon in Lovelock and Reno, Nevada.

He came through Ellis Island May 13, 1917 with written visitor as Valentin Aguirre in NY. He was admitted and discharged from the hospital for vein difficulties in the lower extremities. Shows that his wife Dolores was in Mendata at the time. Shows that he had also come in 1915.

CHILD NOTES: Leon Uribarri Barainca

General: No baptism record. Based on his death record from Stockton, California where he died 8/23/1941 of Chronic Brights Disease.

CHILD NOTES: Sandalio Uribarri Barainca

General: Born 5pm the same day

Civil register filled in 30 years later from his baptismal record

CHILD NOTES: Tereza Uribarri Barainca

General: Born 11am the same day. Her godparents were Felipe de Alespeiti and Tereza de Alespeiti, who were farmers and were brother and sister. They were siblings of Tereza's paternal grandmother Maria Antonia de Alespeiti, and Tereza may have been named after her godmother Tereza. In the margin it states that Tereza married Julian (sp?) Zabala Yspizua in that parish on May 12, 1906. My mother Edna, did her endowment. During the endowment she saw Tereza when she closed her eyes. It was a sweet experience.

Her husband left to America shortly after their fifth child was born. He was successful and sent back a good some of money, which she supposedly was very kind in giving away. Her 2 daughters died and she lived with her sons in Guernica and Mendata, etc.

CHILD NOTES: Maria Uribarri Barainca

General: Born 5am the same day. She was born in the "Caserio denominado Urquiza." Caserio is a country house or hamlet or tiny group of houses. Thus the translation would be "country house called Urquiza." This appears to be the same house where Benita was born, and

Family Group Sheet

30 May 2012

could also be the "address" where the family lived.

She died in her house in Guernica in the arms of her granddaughter Maria Victoria Hormaeche Chopitea at age 77. She died suddenly at home. Maria told us about this while we were in Maria's weekend home in Mendata.

CHILD NOTES: Benita Uribarri Barainca

FATHER NOTES: Nicasio Uribarri Barainca

General: Born 3am the same day. Married to Dolores Yzaguirre on 9/15/1910. Nicasio's godfather was his paternal grandfather Juan Antonio Uribarri, and his godmother was his great-aunt Matea Uribarri, the older sister of his paternal grandfather (and godfather) Juan Antonio Uribarri. In an interesting twist, the godfather of Domingo was Juan Domingo Yzaguirre, whose brother Jose's granddaughter Dolores would end up marrying Nicasio.

He was born in his father's house which was the caserio Urquiza (Urquitze) as were all the children.

Registro Civil was given by his father at 10am the same day. States mother's age of 24 (which should be 30) as verified in other places. His age was 25. Who knows the reasons for this (did he know the exact age, did they have an agreement that she wanted to seem a year younger? Who knows? I note that 9 years later when Maria is born her age on the civil register is 25. Remarkably slow aging.

He came through Ellis the first time in 1904 with intent to visit his brother Leon in Lovelock and Reno, Nevada.

He came through Ellis Island May 13, 1917 with written visitor as Valentin Aguirre in NY. He was admitted and discharged from the hospital for vein difficulties in the lower extremities. Shows that his wife Dolores was in Mendata at the time. Shows that he had also come in 1915.

MOTHER NOTES: Maria Antonia Aguirre Elespeiti Astobieta

General: Born 8am the same day. Married Jan 30, 1847, at the Church San Francisco de Asis in Guernica-Luno (Gernika-Lumo in Basque). Guernica-Luno are a combined two cities 2 miles east of Arratzu. Guernica is famous for its bombing on April 26, 1937 during the Spanish Civil War by German Luftwaffe planes. Pablo Picasso painted a famous picture regarding this massacre. Juan and Maria had their nuptial blessings Jun 28, 1847 at Arratzu. Nuptial blessings (velaciones) was a secondary marriage ordinance sometimes done later than the original ceremony. Maria Antonia's last name in her family records and marriage is spelled Aguirre Elespeiti, but with her children the shortened version of Alespeiti is used. Her parents are Manuel Aguirre-Elespeiti and Maria Antonia Astobieta (who had passed away before the wedding), both parishioners of Luno.

Catalina, Zaraonaindia, Urquiola.

CHILD NOTES: Matea Uribarri Legarra

General: Born at 12 noon of the same day. Her maternal grandparents Bartolome and Ana Maria were her Godparents. Matea was Godmother to both her nephew Juan Domingo Uribarri, and Domingo's first child Nicasio (Benita's father and her brother). It appears that Matea never married, since she is declared single in both cases where she is a Godmother.

CHILD NOTES: Hilario Uribarri Legarra

General: Born at 8pm the night before. Died 2/4/1845 in Arratzu. Hilario and Matea are siblings, although Hilario's baptism record give paternal grandmother name as Uribarri, rather than Urrutia. Urrutia appears correct (though changes could be tied to date of nuptial blessings), since the same occurs for Juan Antonio and Maria Josefa.

CHILD NOTES: Juan Antonio Uribarri Legarra

General: Born at 5pm the day before

CHILD NOTES: Maria Josefa Uribarri Legarra

General: Born at 4:30pm the same day. Married Jose Ramon, Arteche, Solaegui on 6/9/1860 in Arratzu

FATHER NOTES: Martin Urizar Zubero Goxeascoechea, Cortavitarte

General: Godfather Lorete Urizar. Natives and Vecinos of Aulesti

Marriage witnesses include Francisco Goxeascoechea Lorente Urizar

There is another Domingo Urizar married to a Maria Cortabitarte in Aulesti with multiple children. I would almost think that the Maria/Marina were just typos except this couple has a daughter Mariantonia whose birth is only 6 months before Martin. This overlap is enough to suggest they should be different.

I'm attaching three of the others that could be siblings (have grandfathers) but that I think are not.

General: Native of Amoroto.

Marriage witnesses were Juan Coscorraza, Domingo Odiaga, and Santiago Arostegui.

Two marriage indices. Are they really the same? and just 2 ways of indexing into the same book? - originals and copies

Could still get marriage original f11v, but copy is sufficient.

Amoroto M 1699 f11v 1671-1739 and f238vr 1600-1739

MOTHER NOTES: Ana Maria Yturraran Beitia de Arriva, Yturraran de Abajo y Beytia

General: Godparents San Juan Urrutia and Francisca Axubita

Native of Amoroto.

Basic meaning of beitia in basque is down "house of the down part" (goitia is up). They are common suffixes on names.

High vs low place (mountain, valley)?

Thus Yturraran de Arriva (of up) appears to differentiate from Yturraran de Abajo (of down) or beitia (which would be the basque for the Spanish word abajo)

Check close on all of these different 2nd maternals (Butron vs Laxiar), but last one Thomas has both Laxiar and Butron, which pretty much seals it. Only other problem is Ana Maria record looks like a Maria abbreviation rather than Marina, but the is most probably an error.

General: Native of Amoroto. After getting marriage record, try again to see if anything. There is one Goyo family in Amoroto but not same maternal last name. She died shortly after on 11/30/1814 in Arratzu. Domingo apparently died 10/14/1845 at La Ascension del Senor in Ajangiz.

MOTHER NOTES: Maria Bidaurreta

General: Native of Ereno (one has Ispaster)

CHILD NOTES: Juan Yturburu Vidaurreta

General: Received the entry from SIGA-AKIS. It is actually a record tied to his grandson about putting in for a missing record for Juan. It has his parents but not grandparents.

Sending to SIGA-AKIS to get copy. The index is mixed up, having him in a 1700s book, and his record is not found in that, or in the book it should be. Would like to get it to confirm abuelos of Juan Aldape
Are children records Yturburu, Amiax, Ispaster

Gautegiz 1654 Libro 1743-1781?? f134v-r 1171737

There is a Juan Aldape Bidaurreta born April 21, 1658 that could be a brother. The father is Domingo Aldape and mother Maria Bidaurreta. There are records for the grandparents, etc., but no sign of the name Yturburu. Thus, at this point there is not enough evidence to assume he is a brother (though it is tempting). I have included the record images for the 1658 Juan here.

Are the two Juan's the same. Later copy (100 years later - 1759) says Juan born around 1654 so could be the same as the 1658. Other issue is 1658 Juan has last name Aldape, although other names match. His granparents are Aldape and Lartitegui and maternals are Bidaurreta and Urquiza. If look at godparents of the children of sister Maria there is an Urquiza, but that is the only tie.

I just can't find sufficient evidence to say the the 1658 Juan Aldape is correct, though it is close. Thus, I am stopping here for the time being.

CHILD NOTES: Maria Yturburu Bidaurreta

General: married 11/1/1678 at Ispaster. She and her father were from Axpee-Busturia, about 8 miles north of Guernica. Her parents are

Check close on all of these different 2nd maternals (Butron vs Laxiar), but last one Thomas has both Laxiar and Butron, which pretty much seals it. Only other problem is Ana Maria record looks like a Maria abbreviation rather than Marina, but the is most probably an error.

Native of Amoroto.

Basic meating of beitia in basque is down "house of the down part" (goitia is up). They are common suffixes on names.

High vs low place (mountain, valley)?

Thus Yturraran de Arriva (of up) appears to differentiate from Yturraran de Abajo (of down) or beitia (which would be the basque for the Spanish word abajo)

Check close on all of these different 2nd maternals (Butron vs Laxiar), but last one Thomas has both Laxiar and Butron, which pretty much seals it. Only other problem is Ana Maria record looks like a Maria abbreviation rather than Marina, but the is most probably an error.

and sister. They were siblings of Tereza's paternal grandmother Maria Antonia de Alespeiti, and Tereza may have been named after her godmother Tereza. In the margin it states that Tereza married Julian (sp?) Zabala Yspizua in that parish on May 12, 1906. My mother Edna, did her endowment. During the endowment she saw Tereza when she closed her eyes. It was a sweet experience.

Her husband left to America shortly after their fifth child was born. He was successful and sent back a good some of money, which she supposedly was very kind in giving away. Her 2 daughters died and she lived with her sons in Guernica and Mendata, etc.

A marriage witness Joan Usparicha Pagaegui has the same last names as the godfather of her brothers Vicente and Pedro making it even more likely. Appears to have later married Domingo Goicoechea 1/8/1631 in Muxica-Ugarte.

General: Born 6pm the same day. Proclamas y Registros 2/28/1808 in Leketio, Married 3/1/1808 at San Miguel Arcangel in Ispaster, Baptized 9/27/1777 at Ispaster, her parents are Joseph Tomas, Zarandona, Garatea of Ispaster and Theresa Yugarrriza, Bidaurreta of Gizaburuaga (a town 2 miles south of Ispaster). Catalina's sister Josepha was married to Miguel's brother Ygnacio on 8/29/1793 at Ispaster. Catalina was previously married to Juan Miguel Aguirre (Cortazar) Bengoechea on 11/5/1798 at Ispaster, who died at age 28 on 7/3/1805 at Ispaster. He was a twin (sister Maria Margarita, both born at 6pm the same day as baptism) and was baptized 9/30/1776 at Ispaster. Juan Miguel's parents were Baupstista Aguirre Achaval of Ispaster and Maria Bengoechea Burgana of Lekeitio. NFS has confusion with her sister Catalina 1772 being married to her husband.

Catalina had three children with her first husband Juan Miguel Aguirre Cortazar Bengoechea. Or was this her older sister Catalina's husband? Their last names were Aguirre, Zarandona, and they were all baptized at San Miguel Arcangel in Ispaster.

Maria Ursola 9/9/1799 Born midnight the night before, check sealing to parents on these three. Says in progress, but not with mine that I am aware

Maria Thereza 5/2/1802 Born 4am the same day

Joseph Antonio 1/6/1805 Born 7pm the day before. Died 11/08/1805 at Ispaster at age 11 months. Godfather Joseph Zarandona
They are on NFS, but I still need to add them here
